

IN THE SPECIFICATION

Please amend the specification as indicated below.

Please replace paragraph **[0001]** on page 1 with the following paragraph:

[0001] The present application is a continuation of U.S. Patent Application Serial No. 09/709,046, filed November 9, 2000, by Simone Arrigo, et al., now U.S. Patent No. 6,781,570, issued August 5, 2004, which subject matter is incorporated herein by this reference.

Please amend the final sentence of paragraph **[0051]** on page 23 as indicated below:

Inactivity dictates the mode of operation be transitioned to the next power saving mode, while activity after a period of no activity dictates the mode of operation be transitioned to the ~~to~~ run mode 205.
